

Segmented Fold Rollers for Gluing

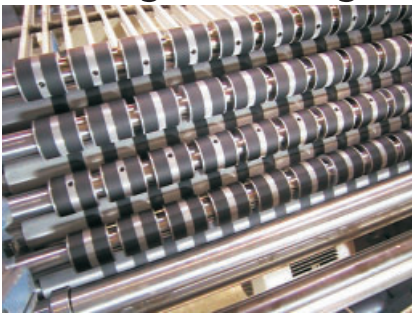

Synthetic material and knurled steel at the surface

Leave in folder for tight tolerance folding

Setscrew-locking segments

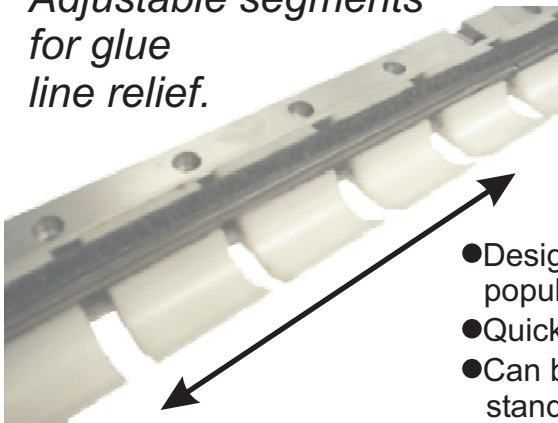

Long wearing

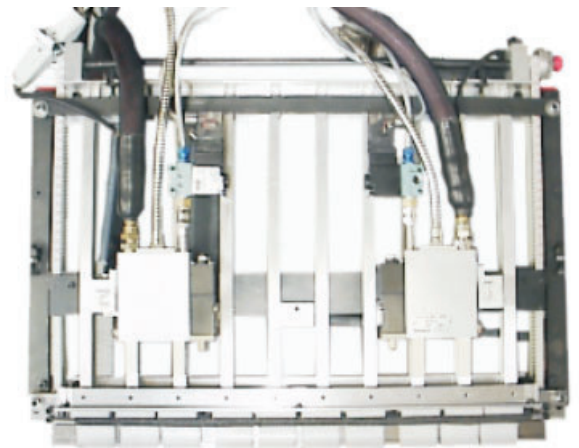

Your choice of open-cell foam urethane or long lasting synthetic rubber material

Segmented Nose Piece

Adjustable segments for glue line relief.

- Designs are for most popular folders
- Quick makeready
- Can be left in place for standard folding

Ideal for in-plate gluing as well
